Career Objective

Enthusiastic and detail-oriented QA Tester with hands-on experience in manual and automated testing. Eager to contribute to a dynamic team and ensure high-quality web applications.

Skills

Technical Skills:

- Web Application Testing (Manual & Automation): Selenium WebDriver, Cypress.io
- Programming: Python, JavaScript
- Tools: Jira, Postman, RestAssured, JMeter, LoadRunner, Appium, XCTest
- Platforms: Sauce Labs, BrowserStack

Soft Skills:

- Analytical & Problem-Solving
- Communication & Collaboration
- Attention to Detail

Projects

E-Commerce Site Testing using Selenium WebDriver

- Description: Conducted end-to-end testing for a demo e-commerce site, focusing on user registration, product search, cart management, and checkout processes. Automated tests with Selenium WebDriver and created detailed reports.
- Outcomes: Identified and fixed 20+ bugs, improved user experience by ensuring smooth navigation and transaction processes, and achieved 90% test coverage with automated scripts.

Personal Finance Tracker App Testing using Cypress.io

- Description: Tested a personal finance tracker application developed with Python and Flask and automated test scenarios for expense tracking, budget management, and financial report generation using Cypress.io.
- Outcomes: Discovered and resolved critical issues affecting data accuracy, enhanced app reliability, and reduced manual testing time by implementing automated tests.
